WORK EXPERIENCE

Kassavirtanen Oy

Helsinki

Fullstack Software Developer

Nov 2021 - Present

- *Tech stack:* React, .NET, SQL, Azure.
- Built and maintained 4 secure in-house financial products with React, .NET, and SQL, reducing bug-related support tickets by 40%.
- Developed REST APIs in .NET used by 5 internal applications, ensuring consistent data handling and reducing duplicate logic.
- Modernized the codebase by upgrading outdated packages, refactoring modules, and standardizing dependencies, resulting in a 35% faster response time and enhanced stability.
- Maintained and published a React Native app to Google Play Store and Apple App Store, reaching 1k+ installs.
- Conducted comprehensive code reviews and facilitated technical roundtable discussions, leading to a 20% decrease in bugs reported post-release and fostering collaborative problem-solving among development team members.
- Provided one-on-one mentorship to 10+ junior developers, resulting in a 25% improvement in their technical skill assessments and enabling successful promotion of 3 team members within six months.

Reactron Technologies Ltd

Espoo

Front-end | Mobile Developer

Sep 2019 - Oct 2020

- *Tech stack:* React, React Native, NodeJs, NextJs, TypeScript.
- Delivered pixel-perfect UIs for 6+ client projects, improving usability and achieving cross-browser/device consistency with less than 2% defect rate in QA.
- Partnered with UX/UI designers to convert wireframes into production-ready solutions, shortening feedback loops and accelerating feature delivery.
- Worked together with CTO and senior developers to ensure smooth MVPs shipping.
- Created a reusable component library and form templates, reducing duplicated code by 25% and increasing frontend maintainability.
- Worked with microservice-based architecture and cloud-native solutions, enabling horizontal scaling and increasing application uptime to 99.9%.
- Collaborated in peer reviews and debugging sessions, improving code quality and accelerating issue resolution time by 33%.

EDUCATION

Laurea University of Applied Sciences

Espoo

Business Information Technology

Graduation Date: Jan 2020

SKILLS & INTERESTS

- **Soft skills:** Problem-Solving, Analytical Thinking, Collaboration, Communication, Mentorship and Ownership, Details-orientation, Time management.
- **Technical Skills:** React, React Native, NextJs, TypeScript, .NET, NodeJs, SQL, Azure.
- **Interests:** Currently learning DevOps, Cloud and AI.
